PROFILE

I'm an MCA student interested in coding, with hands-on experience in Python and MySQL. Along with my technical skills, I am dedicated to coding and enjoy solving problems through programming. I have built small projects using Python and databases, and I am eager to apply my skills in real-world applications while continuing to learn and grow as a developer.

CERTIFICATIONS & HACKATHONS

1. CODE2Trade Hackathons (18 July #2 Rank)

Developed a full-stack system from scratch to analyze 1-year stock data provided by the company. Implemented MA20/MA30 crossover strategy for real-time Buy/Sell signals using AI logic With PYTHON LARAVEL CHATGPT DEEPSEEK GEMINI.
